EDUCATION

Certificate of Software Systems Development

British Columbia Institute of Technology

Sep 2022 - May 2023

Vancouver, BC

Bachelor of Business Administration

Acsenda School of Management

Jul 2014 - Dec 2018

Vancouver, BC

TECHNICAL EXPERIENCE

Industry Project

Agilitek Solutions Ltd.

Apr 2023 - May 2023

Vancouver, BC

Utilized React and AWS Serverless Stack (SST) to develop a customer behaviour dashboard by analyzing customer and transaction data, and displaying the resulting analysis to users for improved business decision-making and performance.

- Optimized database performance by consolidating multiple parallel API calls into a single request, resulting in a significant improvement in fetch time and overall system efficiency.
- Configured AWS Amplify and integrated Cognito authentication to ensure only assigned admin users can access a specific page.
- Implemented a reusable table and graph component using React and third-party libraries to handle data on a frontend page.

Internal Project

Pick and Go

Oct 2022 - Apr 2023

Vancouver, BC

Developed a mobile-responsive website using ASP.NET Core MVC that provides an admin dashboard for restaurants and an online ordering system with store pickup service for customers, scalable to different restaurants.

- Developed an overview dashboard with date tracking capabilities for the admin pages, improving overall data tracking and analysis.
- Implemented a dynamic shopping cart feature using jQuery for real-time updates of user selections throughout the website, and ensured interaction between client-side and backend using AJAX.
- Refined and polished the entire website's style using Bootstrap and CSS, ensuring that the website is fully responsive.

WORK EXPERIENCE

Owner

GoldenBelle
